WG Considerations and Ongoing Discussions

- Considerations
 - 2017-18 season safety data reassuring
 - Discussion regarding quadrivalent adjuvanted vaccine for young children:
 - Reactogenicity
 - Very limited data on coadministration with other vaccines
- Ongoing discussions
 - Vaccine efficacy/effectiveness
 - LAIV4
 - Egg-based vs. non egg-based vaccines
 - Vaccines for persons aged 65 years and older
 - Surveillance, safety and vaccine coverage updates

2018-19 ACIP Influenza Recommendations— Core Recommendation:

- Re-iterates core recommendation that annual influenza vaccination is recommended for all persons aged 6 months and older who do not have contraindications.

2018-19 ACIP Influenza Recommendations—Updates: Vaccine Composition for 2018-19

- U.S. Influenza vaccine composition for 2018-19
 - Trivalent Vaccines
 - A/Michigan/45/2015 (H1N1)pdm09-like virus
 - A/Singapore/INFIMH-16-0019/2016 (H3N2)-like virus--**updated**
 - B/Colorado/06/2017-like virus (Victoria lineage)--**updated**
 - Quadrivalent Vaccines
 - Above three, plus B/Phuket/3073/2013-like virus (Yamagata lineage)

2018-19 ACIP Influenza Recommendations—Updates: FluMist Quadrivalent (LAIV4)

- New language approved by ACIP at vote in February 2018
 - For the 2018-19 season, providers may choose to administer any licensed, age-appropriate influenza vaccine (IIV, RIV4, or LAIV4). LAIV4 is an option for those for whom it is otherwise appropriate.
- Updated VE estimates for LAIV4 will be presented as they become available
- Contraindications and precautions remain the same as previously
- LAIV4 is acceptable for persons with a history of egg allergy (approved by ACIP in February 2016, prior to the decision to not recommend use of LAIV4 for 2016-2017)

2018-19 ACIP Influenza Recommendations—Updates: New Products/Licensure Changes

- Fluarix Quadrivalent (IIV4, GSK)
 - 0.5mL dose licensed for children aged ≥ 6 months (previously licensed for ≥ 3 years) in January 2018
 - Data presented to ACIP in February 2018
 - Three inactivated influenza vaccines licensed for 6- through 35-month-olds:
 - Fluarix Quadrivalent (IIV4, GSK)—0.5mL dose
 - FluLaval Quadrivalent (IIV4, GSK)—0.5mL dose
 - Fluzone Quadrivalent (IIV4, Sanofi Pasteur)—0.25mL dose

2018-19 Influenza Recommendations Discussion and Vote:

Reaffirm the seasonal influenza recommendations for the
2018-2019 season
